## Symposium Themes

- Agriculture 4.0 in sustainable agriculture standards.
- Farm machinery and processes in sustainable agriculture standards.
- Energy applications in sustainable agriculture standards.

## Topics

- Management of field and livestock production machinery
- Management of biomass and agroenergy production
- Reduction of costs, energy and machinery inputs
- Plant protection, soil management and agrochemicals application
- Smart Farming and sustainability
- Ergonomic and labour organization
- Engineering economics in agriculture
- Engineering education in agriculture
- Sustainable agriculture in the European Union and other countries

**Language** - English

## Symposium Fee

Early payment (before 15 September 2019): 150 EUR/700 PLN

Late payment (after 15 September 2019): 175 EUR/800 PLN
