

Over **150 YEARS** of applied research serving agriculture and society

430
assistants

120
scientists

23
laboratories

20 YEARS
of Belac accreditation

230
HA of experimental plots, crops,
grass and orchards

...of which
73 HA
in organic production

15
collections
*...including one of
Europe's richest
collections of fruit
genetic resources*

30 YEARS
of the Sprayer Inspection
Service (ISO 17020)

3 experimental
herds

The CRA-W combines scientific research, service and support functions to benefit Walloon farmers, livestock breeders, horticulturalists and foresters, as well as operators in the agri-food sector.

It works to support citizens, consumers, the economy and the transition to more sustainable agriculture in Wallonia.

THE CRA-W AND DIGITAL TECHNOLOGY

Find us on www.cra.wallonie.be

Rue de Liroux, 9 B-5030 Gembloux
