

# Ce recueil rassemble

- **Des fiches descriptives**

Présentation synthétique de chaque outil et de ses principales caractéristiques

- **Un tableau comparatif**

Vue d'ensemble des ateliers et des indicateurs couverts par les outils

- **Un glossaire**

Définitions des principaux termes utilisés dans le tableau comparatif

## Outils d'évaluation de l'empreinte carbone des exploitations agricoles

### *Fiches descriptives et tableau comparatif*

Ce document présente une sélection d'outils d'évaluation de l'empreinte carbone utilisés dans la zone Interreg France–Wallonie–Vlaanderen. Il rassemble leurs fiches descriptives et un tableau comparatif de leurs principales caractéristiques.

Septembre 2026

| Critères             | Organisations                               | Outils                                    | CARACTÉRISTIQUES DE L'OUTIL |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |  |

Ce tableau présente une synthèse non exhaustive des principaux indicateurs identifiés pour chaque outil. Il a été établi à partir des informations disponibles en ligne au moment de sa réalisation. Afin de faciliter la comparaison, certains indicateurs ont été regroupés dans des catégories communes, sans pour autant recouvrir exactement le même périmètre d'un outil à l'autre. Pour plus de détails, il est recommandé de consulter les fiches descriptives des outils.
